Reasons for Allowance

1. Applicants' Remarks filed 10 March 2009 have been entered and considered and are found convincing. No outstanding objections or rejection remain.

Reasons for Allowance

2. Claims 1, 3-5 and 7-15 (renumbered 1-13) are allowed. The following is a statement of reasons allowance: Regarding the similar independent claims, the prior art of record, alone or in combination, fails to fairly teach or suggest the limitations of a "repeatedly providing a last of the first number of lines for scaling or composing or capturing for each of the horizontal synchronization pulses that are associated with line numbers that exceed the first number of lines, from memory addresses, wherein the last of the first number of lines is provided from the same memory addresses during each repetition," as required by the independent claims.

Comment on 35 USC § 101

3. Independent claim 1 is a "process" claims and has been analyzed in light of the machine-or-transformation ("MOT") test elucidated in *In re Bilski*, 545 F.3d 943 USPQ2d 1385 (Fed. Cir. 2008), *cert granted* 129 S.Ct. 2735 (2009) which requires a "process" under 35 U.S.C. § 101 to:

- (1) be tied-to a particular machine or structure , or
- (2) transform underlying subject matter (such as a particular article or material) to a different state or thing.

Independent claim 1 is found to pass the machine branch of the MOT test because at least the critical claimed steps of "providing," "receiving" and "repeatedly providing" necessarily require the use of a particular machine (e.g. a processor or equivalent). Therefore, claim 1 passes the MOT test.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
